

This year, a few students from CSULB were able to attend the 2017 Food & Nutrition Conference & Expo (FNCE) in Chicago, IL! FNCE is a conference where experts, professionals, retailers, and students come together to see and hear the latest in food and nutrition research, products, and more. It's a great networking opportunity for students, as well as gaining insight into the professional world of nutrition and dietetics. See some of the experiences the students had below!

“My favorite part of FNCE was going through the exhibits with my peers! I got to try new, HEALTHY food and drinks that I didn't know existed and made new friends along the way! I had a wonderful experience and I'm looking forward to going back next year!”

- Reah Chiong

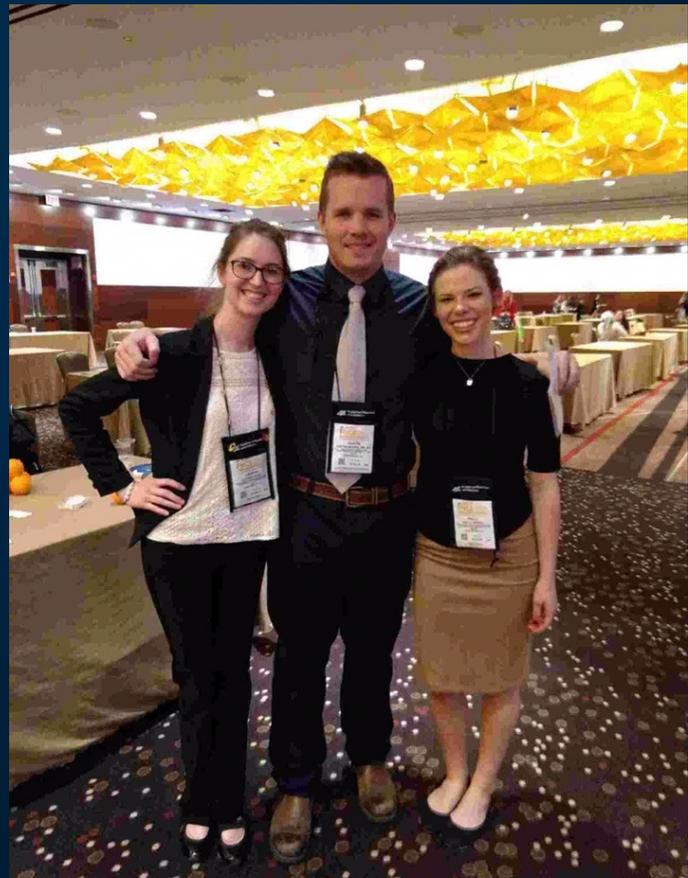

Outside of the conference, all of the CSULB students were able to go sight-seeing and experience some of the best sights Chicago has to offer, including the Ledge at the Skydeck in Willis Tower (don't look down!).

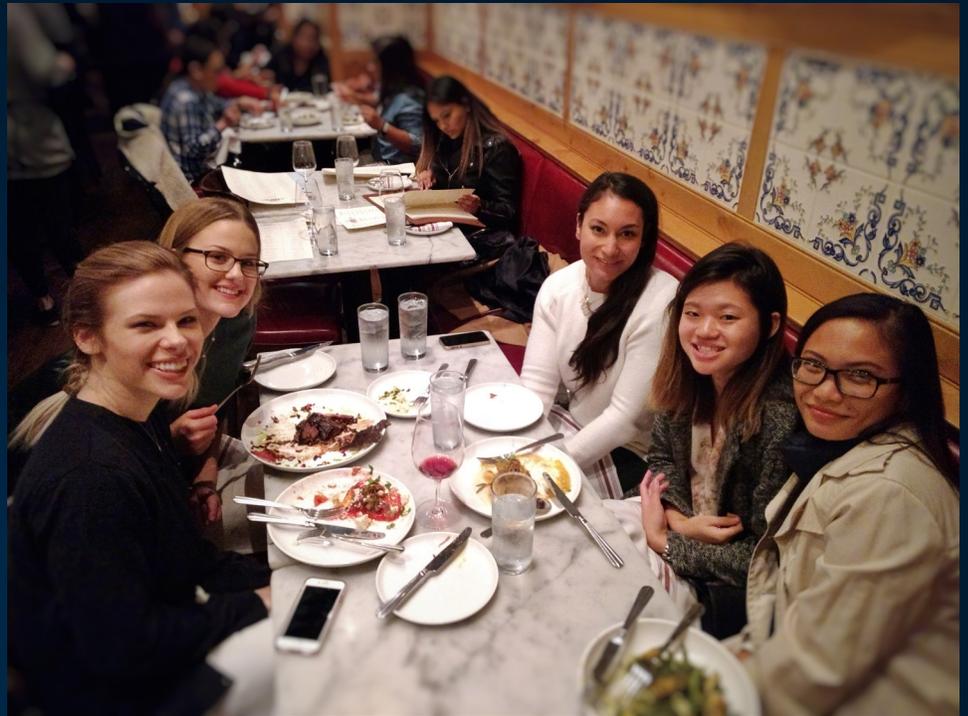

There were almost 500 exhibitors to see at FNCE, including the Hass Avocado Board!

One of the awesome student opportunities at FNCE is the Dietetic Internship Symposium that's held one night during the conference. Over 100 DI program representatives are available for students to ask questions and get all of the information they need regarding internships. The CSULB-ISPP team was there to represent the best ISPP program out there!

Trying out the Purple Pig, one of the many incredible restaurants in Chicago!

"My favorite part of FNCE was being able to see all of the unique aspects of nutrition in a professional setting; food trends, counseling tools, cooking demos, and lectures on new research. I also loved getting to explore the city with my friends, we definitely made some awesome memories! I can't wait for next year!"

- Lauren Kaida
